curriculum be improved for the future growth of the pupil teachers?	By Students participation	By consultation of all stakeholders		Na		More methodologies can be added.also training for online teaching should be added so that it can be more effective. Class time management can be a part of curriculum. How to use NCERT books effectively by teachers---,It can be the part of curriculum?	By linking curriculum with real life experiences of students.		Make advanced technology a constant in courses offered.	Curriculum should consist of some more real life teaching	Curriculum should be designed in accordance with present and future needs keeping in mind.	To make them develop in such a way that they are able to handle evry kind of student in a good manner.	NA

your suggestions for improvement of learning process on the basis of your		Constructivist approach can be very helpful		Na		1.teacher should make feel his/her students that every student is important for me.2.students generally imitate their teachers so if we want to instil some good strategies among students.teacher should first adopt it in his/her behavior.	More interaction and discussions should be held in to enhance teaching learning process. It should not be just confined to textbooks.		Ask them to take a topic for self-learning. Give them assignments that need a lot of research, reading and analytical skills. Conduct debates, seminars and talks for the students.	Teacher should share their experience of teaching and how students should deal with students in classroom	I think we can improve on following points.1.Establishing a good relationship with University for better communication.2. More focus on ICT based teaching , usage of pen tablet, online teaching etc.		NA

the curriculum be improved for the future al growth of the pupil teachers?			More IT skills should be included	Give the task of curriculum revision to school teachers actually teaching there and not the college/university/diet professors	Professional development and the setting of goals go hand in hand. The time to devote to courses and seminars may seem hard to schedule, but the extra time is worth it to become the best teacher you can be.	Providing more Practical Knowledge	New teaching technology should be introduced	Improve teaching policies	Must be. Focus on Prectical.			Providing experience to pupil teachers in participating in curriculum construction and making changes which are focused on information driven society as so important in today's world.
