### 7.1.3

## INSTITUTIONAL WASTE MANAGEMENT PRACTICES

### Segregation of waste

At the Government College of Education, a comprehensive and sustainable approach to waste management is integral to the institution's commitment to environmental stewardship and community responsibility. With a focus on waste segregation, e-waste management, vermicomposting, and the utilization of sewage treated tertiary water for plantation purposes; the college demonstrates its dedication to promoting sustainability and minimizing its ecological footprint.

**Waste segregation** lies at the foundation of the college's waste management strategy. Through proactive education and infrastructure, students, faculty, and staff are encouraged to segregate waste at its source, distinguishing between recyclable materials, organic waste, and non-recyclables. Color-coded bins and clear signage facilitate the separation process, ensuring that each type of waste is disposed of properly. By implementing effective waste segregation practices, the college aims to reduce the volume of waste, minimize environmental pollution, and maximize the recovery of valuable resources.

## E-waste management

In tandem with waste segregation efforts, the Government College of Education prioritizes the responsible **management of electronic waste (e-waste)**. As technology advances and electronic devices become ubiquitous in modern society, the disposal of outdated or malfunctioning electronics presents a significant environmental challenge. Recognizing the potential hazards posed by e-waste, the college has implemented E-waste policy of Chandigarh Administration. E-waste collection is available on campus, where students and staff can dispose their old electronics.

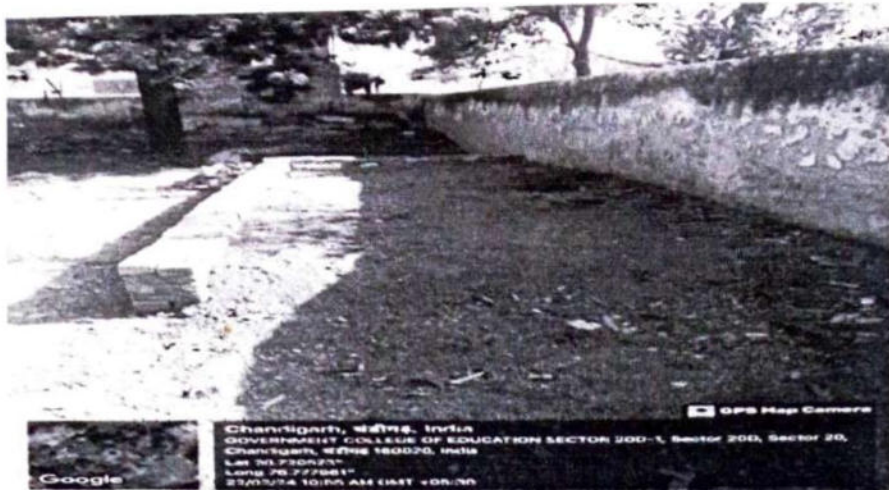

## Vermi-compost

Furthermore, the Government College of Education embraces **vermicomposting** as a sustainable solution for managing organic waste. Through the activity of earthworms, organic waste materials such as food scraps, garden trimmings, and paper products are transformed into nutrient-rich compost. Vermicomposting not only diverts organic waste from landfills but also produces a valuable soil amendment that enhances soil fertility and promotes plant growth. By incorporating vermicomposting into its waste management practices, the college demonstrates its commitment to closing the loop on organic waste and promoting circular economy principles.

Sector 20-D, Chandigarh

**Sewage treated tertiary water usage**

Chandigarh city has central water sewage plant. However Government College of Education leverages **sewage treated tertiary water** for plantation purposes, furthering its sustainability efforts. Through advanced treatment processes, sewage water is purified to meet stringent quality standards, rendering it safe for use in irrigation and landscaping. This treated water is utilized to nourish green spaces, gardens, and plantations across the campus, conserving freshwater resources and reducing the demand for potable water. By harnessing sewage treated tertiary water for plantation purposes, the college not only minimizes its environmental impact but also creates a lush and vibrant campus environment that enhances the well-being of its community members.

Therefore the Government College of Education exemplifies a holistic approach to waste management and sustainability, integrating waste segregation, e-waste management, vermicomposting, and the utilization of sewage treated tertiary water into its operations. Through these initiatives, the college demonstrates its commitment to environmental responsibility, resource conservation, and community engagement, setting a positive example for future generations and contributing to a more sustainable future.

### REPORT

**Dated: - 13-10-2023**

### **International E-Waste Day**

Parijat Eco-Club of Government College of Education, sector 20, Chandigarh organized the event on occasion of international E-waste Day. The event commenced with a warm welcome by Dr. Sapna Nanda, the principal of the college to Chief Guests, T.C Nautiyal an IFS (Indian Forest Service) officer, Shri Rahul Mahajan (tree man), and Rhythm Agarwal (Asst Environmental Engg CPCC), provided a formal address, emphasizing the significance of managing e-waste and the role of education institutions in promoting awareness. The Chief Guests also led a lamp lighting ceremony to symbolize the enlightening of minds towards responsible e-waste management. Mrs. Rhythm Agrawal, a representative from the Chandigarh Pollution Control Committee, discussed e-waste examples, global concerns, recycling management rules, objectives, and the Extended Producer Responsibility (EPR) duties of the State Pollution Control Board. She also presented a list of registered e-waste dismantlers and producer responsibility organizations. T.C Nautiyal delivered a speech, highlighting how young people are significant contributors to e-waste and the adverse impact of e-waste on human health. He also emphasized the importance of reducing the usage of polythene. The event featured prize announcements sponsored by the Environment Department, recognizing various achievements.

Awards: Wildlife Photography Competition Winners:

1st Prize: Komal

2nd Prize: Sonia

3rd Prize: Mamta

E-Waste Poster Competition Winners:

1st Prize: Shivani Puri

2nd Prize: Shagun Vinayak and Pallavi

3rd Prize: Himanshu and Vishakha

E-Waste Model Competition Winners:

1st Prize: Tanuja Kapoor

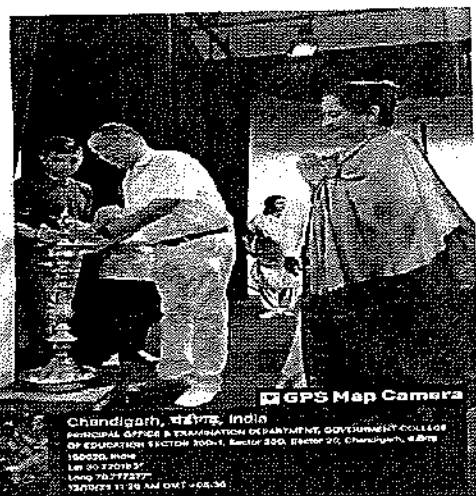

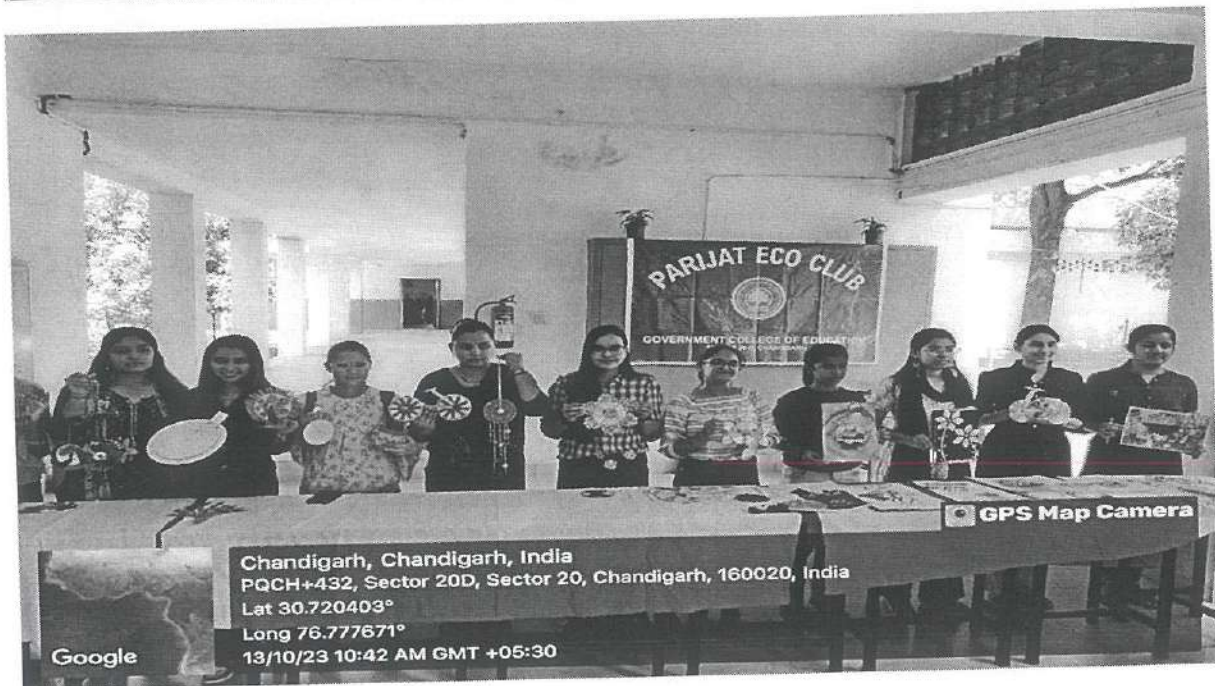

2nd Prize: Prakriti and Taranjit Kaur

3rd Prize: Kavya Mahajan and Nisha

Vote of thanks was delivered by Dr. Ravneet Chawla. The event concluded with a group photograph of all the participants, blessings from the Principal and dean sir and a rendition of the national anthem, marking the end of the function. The event was a significant step in promoting awareness about e-waste management and the importance of responsible disposal and recycling.

**EARTH DAY 2022(Awareness Rally)**

**Date:21-04-2022**

The PARIJAT ECO- CLUB and the Department of Fine Arts of Government College of Education, Sector 20-D, Chandigarh organized a Social Awareness Rally on 21<sup>st</sup> April, 2022 at 09:10 am to observe Earth Day (22<sup>nd</sup> April 2022) to demonstrate support for environmental protection. The students of B.Ed. IVth semester gathered in front of the auditorium of the college where they were addressed by Principal, Dr. A. K. Srivastava who encouraged the students to participate in the rally with full enthusiasm and gave a green signal to begin the rally. The students prepared various posters with quotes and pictures depicting social awareness to save the earth. The rally started from the college with slogans being chanted with full energy and loud voices of the students echoing. The rally covered the premises of the whole Sector 20 where students kept on repeating the slogans like **"SAVE EARTH, SAVE LIFE"**, **"GREEN EARTH, CLEAN EARTH"**, **"NO EARTH, NO BIRTH"**. The public also supported the rally by clapping and clicking pictures and some also came up with their own posters which added on to the already lively zeal of the students. The students came back in the college after a whole round and it ended on a peaceful note.

GOVERNMENT COLLEGE OF  
EDUCATION  
SECTOR-20D, CHANDIGARH

CLEAN INDIA CAMPAIGN.02 (OCTOBER 19, 2022)

The NSS CELL of the Govt. College of Education, Sector 20-D Chandigarh participated enthusiastically in the **Clean India Campaign.02** which was held on October 19, 2022 as per the directions of the Ministry.

Teachers, staff members and students of B.Ed first year collected 30 kgs plastic from their homes and neighbouring areas and accumulated it in the college. Each volunteer collected approximately 1.5 kgs of the plastic. The same was handed over to the Municipal Corporation of Chandigarh who collected it from the college campus. Dr. A.K. Srivastava addressed the students and educated them about the adverse effects of using plastic and encouraged them all to avoid using it as much as possible by consuming safer, biodegradable substitutes.

The event was successfully conducted under the guidance of the NSS CELL Incharge of the college Dr. Ravneet Chawla, P.O. Officers Mr. Ravinder Kumar and Mrs. Sonika Devi along with the dedicated efforts of the student committee member.
