7.1.4

Water Management and Conservation Initiatives of the Institution

The Government College of Education is actively working to implement a comprehensive strategy for water conservation and management. This strategy includes the collection of rainfall, use of tertiary water for irrigation, the management of reservoirs and tanks, and activities that aim to reduce the amount of water that is wasted.

Rainwater harvesting

The college's water management policy is built on the foundation of **rainwater harvesting** as a major component. By installing rainwater collecting systems on rooftops and other suitable surfaces across the campus, precipitation is effectively gathered and diverted into specified reservoirs or tanks. This is accomplished by the installation of rainwater collection systems. This rainwater that has been collected is put to use for a variety of reasons, such as irrigation, flushing toilets, and replenishing groundwater sources, which significantly reduces the reliance on water supplies that come from outside sources.

Govt. College of Education
Sector 20-D, Chandigarh

Sewage treated tertiary water usage

In addition to these initiatives, the Government College of Education leverages **sewage treated tertiary water** for plantation purposes, furthering its sustainability efforts. Through advanced treatment processes, sewage water is purified to meet stringent quality standards, rendering it safe for use in irrigation and landscaping. This treated water is utilized to nourish green spaces, gardens, and plantations across the campus, conserving freshwater resources and reducing the demand for potable water. By harnessing sewage treated tertiary water for plantation purposes, the college not only minimizes its environmental impact but also creates a lush and vibrant campus environment that enhances the well-being of its community members.

Reservoirs/tanks/bore wells

The **management of reservoirs, bore wells and tanks** plays a crucial role in ensuring that water resources are utilized in an effective manner within the college campus, girls hostel and boys hostel. In order to maximize the capacity of water storage, avoid leaks, and maintain water quality standards, routine maintenance and monitoring activities are carried out.

Economical usage/reduced wastage

In addition, the college actively encourages activities that are aimed at decreasing water waste and encouraging students, teachers, and staff members to use water in a more economical manner. A culture of responsibility and mindfulness with regard to water usage is being inculcated across the campus through the implementation of awareness campaigns,³ educational workshops, and signage that highlights water conservation.

One Day NSS Camp

World Water Day (March 22, 2022) – Report

" Groundwater: Making Invisible Visible "

NSS cell of Government College of Education organized One Day NSS camp @ Azadi ka amrit mahotsav on the occasion of Water Day on March 22, 2022. The camp began with beautiful chanting of Gayatri Mantra by NSS volunteers followed by the NSS song. Dr. Lilu Ram, Associate Professor, Government College of Education, Sec-20D, Chandigarh highlighted the "Importance of Water in our life" by briefly explaining the concern of water with living. He shared information about various projects related to water conservation and about dwindling availability of fresh water resources. He focused on falling level of water by sharing per capita availability status of water resources in India. After this, respected Principal, Dr. A.K. Srivastava, addressed the NSS volunteers on importance of water by quoting "Jal Nahi To Jeevan Nahi".

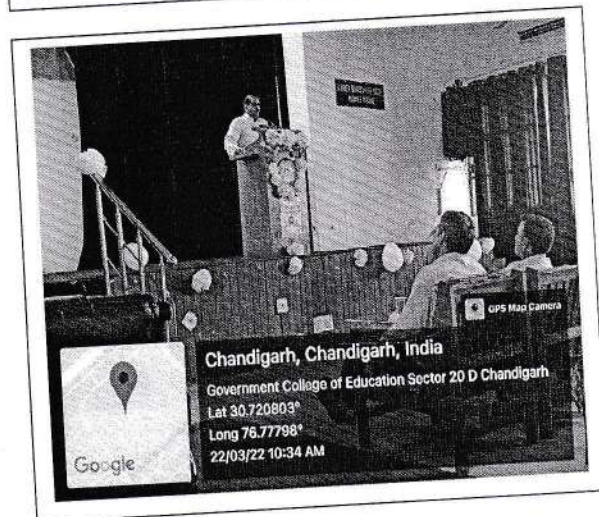

Shri Krishna Dull, Convener of Jal Manch, awared the students about the actual water crisis that is being faced by the world at present. He used daily life examples to explain how blindly the water is being wasted. He compared the statistics of previous years with present scenario. He greatly motivated and inspired the NSS volunteers to be sensitive towards economical use of water. He lead a pledge for not wasting water but using it ideally according to the need of individual which was followed by a rally drive on the theme endorsed by Sh. Krishan Dull, Principal Dr. A.K. Srivastava and faculty members.

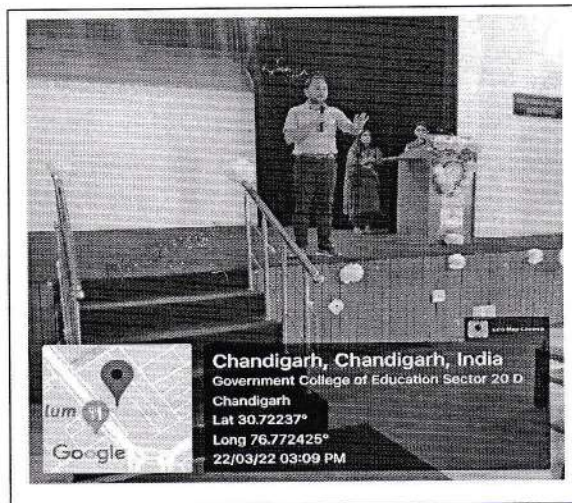

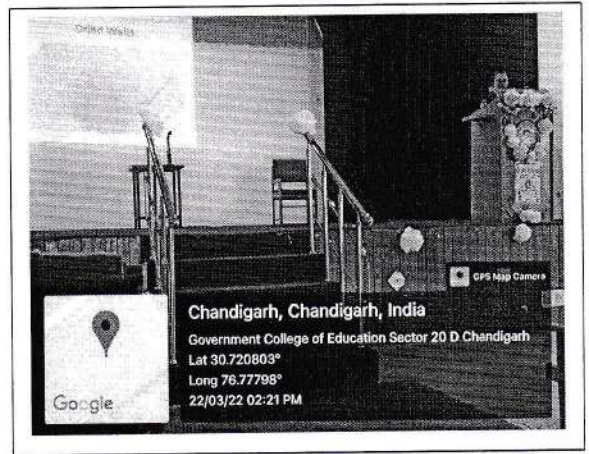

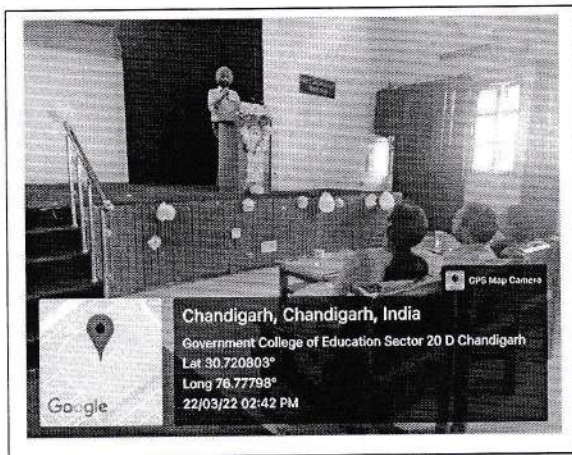

A book review competition on the book 'Why I am an Atheist' was also held to pay tribute to Shaheed-e-Azam Bhagat Singh on the Martyrdom Day. The participation of the volunteers was overwhelming. In his remembrance, patriotic songs and skits were also performed by NSS volunteers.

A presentation by NSS Volunteers Kavita Singh & Tsering Youdol on the theme of the day was presented. Through this presentation they briefly explained all the statistical data related to usage and availability of groundwater on earth with special reference to India. They gave so many solutions for recharging the groundwater.

Postlunch session was carried out with cleanliness drive by the NSS volunteers in the whole college campus. They were divided into different groups to perform the task. Vote of thanks was given by NSS PO Mr. Ravinder Kumar. And the camp was ended with National Anthem.
