LOVE OF LEARNING

We want our students to love to learn. A passion for learning is quite different from just studying to earn a grade. Those who develop a love of learning continue the process throughout their lives and are generally more successful, interesting, and happier than those who don't. Realizing that the one thing that we give our students that no one can take away, is their education and we try to take more care to engender this love of learning that will lead to their ultimate success.
